Q: Can you beat Fluctus in the Final Fantasy XI? I have been trying to beat him since I have started playing the game but have failed miserably. I have to admit I don't know much about the enemy selection in this level so that's why I am asking this question. Some of the things I have done were: Survivor with Degen as the monster Being Ramza and all your characters level 50 No AGO What else do I need to do to be successful? A: There are two modes in this fight: Bosses and normal mode. Bosses have your own AI, and should be dealt with with your own personal strategy. The monsters that would normally be 10, 11, etc are now level 100s. I won this fight when I used this strategy: Gouki - Spam Grab/Kick/AOE Arrow Naja - Burn or Freeze Solias - Cull Hildebrand - Hogging with spell immunity I finished it with 27 HP left in my HP bar. I ended up killing him with just Arisen of Level 50, his buddies, and their Master. 60 Minutes Usefulness and Usability Review - stevencorona ====== pavel_lishin I don't think I've ever been so discouraged by a website, and not just from their product. ------ Derbasti "60 Minutes" is not an informative name. 60 minutes are the best part of the film "Ghostbusters". ------ joshfinnie I don't want to bombard on the site, but I feel this product does have some serious problems.
